We discussed at length - CDCR - mandated O/C of Wellbutrin (if becomes nonformulary 11/1/07). Discussed changing his medication to Effexor XR - potential benefits/risks. Pt. stated he would take Wellbutrin until it will no longer be available 11/1/07, but refused another antidepressant (briefly considered Prozac, then declined it, too). He signed a Request form, clearly stating he is aware Wellbutrin will be nonformulary (explained to him) &amp; not available as of 11/1/07, but that he wants no other antidepressant medication.</p> <p>⑦ MON to psych eval for PTSD</p> <p>⑧ Pt. was encouraged to consider another antidepressant, &amp; to let psych services know if he changed his mind. Will ask that he be located in ASAP to see his regional psychiatrist (after he reports in early AM) for E/C.</p> <p style="text-align: right;">B. J. Williams MD</p>

4 Note - CM 90 Day F/U (1st Mtg. w this clinician, met IM. at JOTT)

S: "I'm ok. sometimes pretty good, other times not.... yeah I wanted to go EOP so I can work closer to my family [San Diego]... I.M. spec. % "I'd like the Benadryl back... for sleep."

O: I.M. is a S, 50y.o., well-nourished, nicely groomed AA male of 6 (5-30yrs of age), I in his no. lived well. (Misinformed re: EOP, Inter CDC transfers, etc... Open-minded & seemingly comprehended info., appreciative of same.) Mood = dysphoric, but broad range affect, congruent to content of discussion. Clearly denies current S/H. I hx S/H; (+) hx violence. Of 4, speech spontaneous, clear, coherent, organized, & Report/Evid. of Yotic sxs/process. Hx: ? A/H. (see prior Data Base). I & J - fair → good at this X. Historically - ~~slightly~~ severely limited & grossly impaired judgment & 2° sub. use/abuse. Minimizes this I.I. I.M. mentions some sleep disturbance, but no signif. ↓/↑ reported.

A: (Proc) Dx: Axis I Dep. D.O. NOS  
ETOH Dep.

Acute issues, concerns... would like Harriet appt re: Benadryl

P: - F/U CM ~ 30 days (exp. I.M. assigned to this clinician & ↑ info.)

Harriet Appt per sched. ~ 1/mth. vs I.M. Reg.
